

App. No. 10/675,339
Response to O. A. Oct. 18, 2005
Amend. Dated Nov. 9, 2005

Amendments to the Claims

This listing of claims accompanies filing of a response in reply to restriction requirement.

Claim 1 (original) A therapeutic tissue healing composition adapted for oral and non-oral application in mammals comprising:

an effective amount of a mixture of fat soluble vitamins A and D.

Claim 2 (original) The composition of Claim 1, further comprising an effective amount of Vitamin E.

Claim 3 (cancel)

Claim 4 (cancel)

Claim 5 (cancel)

Claim 6 (cancel)

Claim 7 (original) The composition of Claim 1, wherein said Vitamin A is selected from the group consisting of retinol, 3,4-didehydroretinol, carotene, alpha-carotene, beta-carotene, delta-carotene, and gamma carotene.

Claim 8 (original) The composition of Claim 1, wherein said Vitamin D is selected from the group consisting of cholecalciferol and ergocalciferol.

Claim 9 (original) The composition of Claim 2, wherein said Vitamin E is selected from the group consisting of Vitamin E acetate, Vitamin E succinate, pharmaceutically acceptable Vitamin E salts and Vitamin E phosphate.

Claim 10 (cancel)

App. No. 10/675,339
Response to O. A. Oct. 18, 2005
Amend. Dated Nov. 9, 2005

Claim 11 (cancel)

Claim 12 (cancel)

Claim 13 (cancel)

Claim 14 (cancel)

Claim 15 (original) The composition of Claim 1, wherein said Vitamin A is retinyl palmitate.

Claim 16 (original) The composition of Claim 1, wherein said Vitamin D is ergocalciferol.

Claim 17 (original) The composition of Claim 2, wherein said Vitamin E is tocopherol.

Claim 18 (original) A wound healing composition for repairing human tissue adapted for oral and non-oral administration, comprising:

 a therapeutically effective mixture of zinc oxide and at least two fat-soluble vitamins admixed with a pharmaceutically acceptable carrier.

Claim 19 (cancel)

Claim 20 (cancel)

Claim 21 (cancel)

Claim 22 (original) The composition of Claim 18, wherein the therapeutically effective mixture comprises between about 0.01% and about 75% by total weight of zinc oxide.

App. No. 10/675,339
Response to O. A. Oct. 18, 2005
Amend. Dated Nov. 9, 2005

Claim 23 (original) The composition of Claim 19, wherein said therapeutically-effective mixture comprises between about 0.01% and 99.99% by total weight of fat-soluble vitamins.
